2022 CTSH Meeting

CAPITALISMS, TECHNOLOGIES, SOCIETIES AND HEALTH

A Euro-Asian research project

July 12th - July 13th 2022 | 13.00 - 18.00
In English

On site – Centre des Colloques – Salle 100
Campus Condorcet, Place du Front Populaire
93300 Aubervilliers

Contact: fabien.michel@ehess.fr

/\ Mandatory registration /\
Three issues are worth mentioning as they illustrate these divergent paths and should be the focus of a discussion about their origins and their consequences. First, STS scholars in Asia include in their analysis concerns about the long-term history of knowledge and technology in the region. Second, they have launched important projects mobilizing history to investigate the transformation of non-Western forms of knowledge. Third, Asian STS resonates with the more general trend toward studies of global circulations but tends to build upon a broader understanding of governance and regulation.

Beyond the obvious need for a discussion about the validity and limits of such a description, the panel we seek to organize aims at identifying frontier themes and theoretical tools deemed important to problematize “the” global, its relations to local practices and policies, the multiple/alternative modes of innovation and intervention it entails.

This event is organised in the framework of the first annual meeting of the Euro-Asian research team - Capitalisms, technologies, societies and Health, to be held from July 7th to July 13th 2022, followed by two others in 2023 and 2024. The general goal of the project is to revisit the relations between technologies and societies by focusing on health issues. This annual meeting, bringing together the project’s research team on the Condorcet Campus, should help to communicate the team’s work to a wider public, strengthen collaborations within the research project, report on the first results and set the next steps.

Provisional Program

13:00 | Introduction
Jean-Paul Gaudillière (EHESS-Cermes3)

13:15 | Opening statements by the panel participants
Naonori Kodate (University College Dublin)
Wen-Hua Kuo (National Yang-Ming University)
Harilal Madhavan (Indian Institute of Science Education and Research – Thiruvananthapuram)

14:45 | General discussion

15:55 | Concluding remarks
This conference will discuss issues on the politics of innovation and their transformation with the specificity of reflecting these in relations with the diversity of contemporary political economies and their relations to globalization.

This event is organized in the framework of the first annual meeting of the Euro-Asian research team - Capitalisms, technologies, societies and Health, to be held from July 7th to July 13th 2022, followed by two others in 2023 and 2024. The general goal of the project is to revisit the relations between technologies and societies by focusing on health issues. This annual meeting, bringing together the project’s research team on the Condorcet Campus, should help to communicate the team’s work to a wider public, strengthen collaborations within the research project, report on the first results and set the next steps.

Panel Provisional Program

13:00 - 13:10 | Opening remarks
Representative of IFRIS to be confirmed

13:10 - 13:30 | Introduction of the Research Project
Jean-Paul Gaudillière (EHESS-Cermes3), Sébastien Lechevalier (EHESS-FFJ-CCJ)

13:30 - 14:15 | Session 1
Robert Boyer (EHESS)
Keun Lee (Seoul National University)

14:15 - 15:00 | Session 2
Matthieu Montalban (Université Bordeaux)
Cornelia Storz (Goethe Universität)

Coffee Break

15:10 - 15:55 | Session 3
David Flacher (University Paris 13) - to be confirmed
Sébastien Lechevalier (EHESS-FFJ-CCJ)
15:55 - 16:40 | Session 4
Yves Tiberghien (University of British Columbia)
Second presentation to be confirmed

16:40 - 17:20 | Discussion

17:20 | Concluding remarks
Jean-Paul Gaudilliére (EHESS-Cermes3), Sébastien Lechevalier (EHESS-FFJ-CCJ)

Cocktail
Participants
(alphabetic order)

Robert Boyer (Professor, EHESS)

Robert Boyer is economist and associate researcher at the Institute of the Americas since January 2012 and member of its scientific committee since January 2016. His main research fields are “Régulation” theory, an analysis of the transformations of capitalisms, Asian and Latin American capitalisms, European and other regional integrations, Financial crises, History of economic theories, Innovation and growth analysis, Institutional and historical macroeconomics, Labor markets and wage labor nexus and Variety of capitalisms and international comparisons. In October 2020 he published Les capitalisms à l’épreuve de la pandémie. In this essay, the author provides an understanding of the processes set in motion in 2020 and sheds light on the field of possibilities. The dislocation of international relations, the break-up of the euro zone, the destabilization of the social state and the rise of populism are not unlikely. However, a major shift towards a new model built on the complementarity between education, training, health and culture, which would meet citizens’ demand for solidarity and the requirements of the ecological transition, is not excluded either.

Jean-Paul Gaudillière (Professor, EHESS)

Naonori Kodate (Associate Professor, University College Dublin)

Nao is Associate Professor in Social Policy at University College Dublin, Ireland (UCD) and founding Director of UCD Centre for Japanese Studies. He holds a PhD in Political Science (LSE, UK). His research covers comparative public policy, and science, technology and society (e.g. the use of eHealth), patient safety, and gender equality in STEM. He is currently the Principal Investigator of a Toyota Foundation-funded international research project “Harmonisation towards the establishment of Person-centred, Robotics-aided Care System (HARP: RoCS)”. Nao is on the Board of Directors for the Future Technologies for Integrated Care Research Network, Japan. Nao is affiliated with Public Policy Research Centre, Hokkaido University; la Fondation France-Japon (FFJ), EHESS; UCD Centre for Interdisciplinary Research Education and Innovation in Health Systems; and the Institute for Future Initiatives, University of Tokyo.
Wen-Hua Kuo (Associate Professor, National Yang-Ming University)

Wen-Hua Kuo is a professor at National Yang-Ming University, Taiwan, where he teaches social studies of medicine. His work revolves around pharmaceutical regulation and its social impacts in the East Asian context and later controversies in East Asian medicines’ attempt to be modernized and used globally. His scholarly publications appear in a range of journals crossing several disciplines, including the Journal of Law, Medicine, and Ethics, Drug Information Journal, East Asian Science, Technology and Society: an International Journal, and Social Science & Medicine. In addition to his current research on the changing of care and caring professions, he has been served as the editor-in-chief of East Asian Science, Technology and Society: An International Journal (EASTS), one of the few journals serving as a bridge between STS studies done in and about this region, since 2016.

Sébastien Lechevalier (Professor, EHESS)

Sébastien Lechevalier is an economist and a professor at the School of Advanced Studies in the Social Sciences, Paris (EHESS). He is specialised in Japanese economy and Asian capitalism. He is also the founder and president of the Fondation France Japon de l’EHESS (FFJ). He has been a visiting professor at various universities in Japan, including Tokyo University, Kyoto University, Hitotsubashi University, Waseda University and Doshisha University.

Keun Lee (Professor, Seoul National University)

Keun Lee is a Professor of Economics at the Seoul National University (SNU), and Head of the Center for Comparative Economic Studies of SNU. He is also the Vice-chairman of the National Economic Advisory Council, which is a key advisory position for the President of Korea (Chairman of the Council). He is a Fellow of the CIFAR (Canada) program on Innovation, Equity and Prosperity, and founding director of the Center for Economic Catch-up. He is the winner of the 2014 Schumpeter Prize for his monograph on Schumpeterian Analysis of Economic Catch-up (2013 Cambridge Univ. Press), as well as the 2019 Kapp Prize from the EAEPE, for his article on national innovation systems. He is also an editor of Research Policy, and an associate editor of Industrial and Corporate Change. He served as the President of the International Schumpeter Society (2016-18), a member of the Committee for Development Policy of UN (2013-18), a council member of the World Economic Forum (2016-19), and the President of the Korean International Economic Association (2020). He obtained Ph.D. in economics from the University of California, Berkeley. One of his most cited articles is a paper on Korea’s Technological Catch-up published in Research Policy, with 1,350 citations (Google Scholar). His H-index is 45, with about 115 papers with more than 10 citations. He has a new book, China’s Technological Leapfrogging and Economic Catch-up, forthcoming from Oxford Univ. Press (2021).

Harilal Madhavan (Researcher, Indian Institute of Science Education and Research)

Harilal Madhavan is a development economist (PhD 2011 - JNU) specialized in economic and interdisciplinary research on Asian indigenous medicines, health and pharmaceutical policies and intellectual property rights. Currently he is a faculty member of School of Humanities at Indian Institute of Science Education and Research (IISER), Thiruvananthapuram. Since 2005, Harilal has been part of various organisations, universities and research institutes in both teaching and conducting internationally funded research projects on related fields of Asian medicine industries, health institutions and policies. Research projects funded by European Research
Council, Azim Premji Foundation, Wellcome Trust and Indian Council for Social Science Research are some among those. Harilal has published extensively on various themes of indigenous medicine and innovations in journals like Social Science and Medicine, Health Policy and Planning, Asian medicine, Tropical Medicine and International Health, World Intellectual Property, Economic and Political Weekly, etc. apart from publications as book chapters and monographs.

**Matthieu Montalban (Associate Professor, Université Bordeaux)**

Matthieu Montalban is an HDR lecturer in economics at the University of Bordeaux and is attached to GREThA. His research is in the field of institutional economics, applied to industrial issues. He has worked on the financialization, business models and regulation of the pharmaceutical industry; he is currently working on digital capitalism, notably on the analysis of the business models of digital platforms and gig economy and their effects on labour, and also on cooperative alternatives to these platforms, as well as on cryptocurrencies and the relations between capitalism and transhumanism ideology. He has published several articles, books and book chapters on these issues.

**Anne Rasmussen (Professor, EHESS)**

Anne Rasmussen is Director of Studies at EHESS and Director of the Alexandre Koyré Centre – CAK. She is Historian, specialist in sciences history. Her main research themes are: Social and cultural history of scholarly practices, 19th-20th centuries; History of science and biomedical knowledge, 19th-20th centuries; Science, medicine and territory; Science and war, 19th and 20th centuries; Social and cultural history of scholarly practices, 19th-20th centuries.

**Hideaki Shiroyama (Professor, The University of Tokyo)**

Hideaki SHIROYAMA is a Professor of Public Administration at the Policy Alternatives Research Institute (Ex-Director), the Graduate School of Public Policy (the former Dean), and the Graduate Schools for Law and Politics, The University of Tokyo. His research focuses on international administration, science, technology and public policy, and public policy process. His publications include Transformation of Political Space and policy Innovation 1 Political Theory of Policy Innovation (University of Tokyo Press, 2008), The Structure of International Aid Administration (University of Tokyo Press, 2007), Governance of Science and Technology (Toshindo, 2007), “The Harmonization of Automobile Environmental Standards between Japan, the United States and Europe” in Pacific Review vol. 20-3, “Administrative Reorganization and Public Sector Reform in Japan” in The Public Sector in Transition: East Asia and the European Union Compared (Nomos, 2007), “Technology Innovation and Diffusion for Environmental Protection,” in Energy Market Restructuring and the Environment (The University Press of America, 2002). He also served as the Chairman of the Planning Committee of New Initiatives for Humanities and Social Sciences Program at the Japan Society for the Promotion of Science from 2003-2008, as President of the PI forum, an NPO for consensus building in Japan from 2006-2008 and as a member of various government advisory councils on higher education, nuclear safety, food safety, fire protection, scenarios for climate mitigation, and industrial policy.
Cornelia Storz (Professor, Goethe Universität)

Cornelia Storz holds the Chair for the Study of Economic Institutions, Innovation and East Asian Development at Goethe University in Frankfurt. She graduated in Economics and Japanese studies from the University of Bonn in 1995 and received her PhD in Economics at the University of Duisburg in 1996. Before joining Goethe University of Frankfurt, she worked at the University of Marburg until 2008. Her primary area of research is innovation and entrepreneurship with a special focus on institutional contexts. Cornelia Storz is Academic Director of the Master Program Modern East Asian Studies and Member of the Board of Directors of the Interdisciplinary Centre for East Asian Studies (IZO). Her research projects are funded by the German Research Foundation (DFG), the Volkswagen Foundation, the Japanese Society for the Promotion of Science (JSPS) and the Federal Ministry of Education and Research (BMBF).

Yves Tiberghien (Professor, University of British Columbia)

Yves Tiberghien (Ph.D. Stanford University, 2002; Harvard Academy Scholar 2006; Fulbright Scholar 1996) is a Professor of Political Science, Director Emeritus of the Institute of Asian Research, and Co-Director of the Center for Japanese Research at the University of British Columbia (UBC) in Vancouver, Canada. Yves is Distinguished Fellow at the Asia-Pacific Foundation of Canada and a Senior Fellow at the University of Alberta’s China Institute. He is an International Steering Committee Member at Pacific Trade and Development Conference (PAFTAD). He is a visiting professor at Tokyo University and at Sciences Po Paris. He co-founded the Vision 20 initiative in 2015. Yves’ research specializes in comparative political economy and global economic and environmental governance, with an empirical focus on Japan, China, Korea, and Europe. His latest book is The East Asian Covid-19 Paradox (forthcoming 2021, Element Series, Cambridge University Press). In 2020, he edited an online collection of papers on Japan’s leadership in the Liberal International Order.
